## PERSONAL PROJECTS

### Ever Care Hospital

- Designed and developed a comprehensive online presence for the healthcare sector, showcasing my ability to merge functionality with an intuitive user interface. This project not only demonstrates my technical proficiency in WordPress design but also highlights my dedication to delivering impactful solutions tailored to specific industries.

### Recipes4u.co

- Initiated and developed the 'Recipes4U' project, a standout achievement in my repertoire. Created a vibrant and user-friendly platform dedicated to culinary enthusiasts, showcasing my prowess in WordPress design and development. The project reflects my commitment to delivering engaging and tailored solutions, with a keen focus on user experience.

### Teach For Pakistan

- Solely responsible for the maintenance and seamless operation of the 'Teach For Pakistan' project, a pivotal role that showcases my dedication to ensuring the ongoing functionality and success of a significant initiative. In charge of preserving the website's integrity, performance, and user experience, I have demonstrated a meticulous approach to troubleshooting and problem-solving.

### Digital Tasbeeh (FYP)

- Successfully developed the 'Digital Tasbeeh' project as a capstone achievement during my final year at university, utilizing Flutter for its dynamic and cross-platform capabilities. Designed to modernize and digitize the traditional counting tool, this project exemplifies my innovative approach to problem-solving.
